**GitHub:** <https://github.com/curtTheNerd>

**Location:** Leipzig, Germany

---

I'm a web developer based in Leipzig, Germany, working mainly with React, JavaScript, and TypeScript on the frontend, and increasingly across the full stack with PHP, Laravel, and Docker. Coding began as a long-standing interest and turned into a career once it became clear it was what I wanted to build on. I came into it from a few different fields, and that mix taught me to adapt quickly and to keep looking for the better way to do things — in code, and in the processes and workflows around it.

I move comfortably between frontend and backend work and keep deepening my backend and database skills. I like varied projects and working out what each one actually needs. If that's useful to you, feel free to get in touch.

---

## EXPERIENCE

### Contract Web Developer & Web App Consultant | 2023–Present

Self-employed, Leipzig/London

React, JavaScript & TypeScript, HTML 5, CSS 3, SCSS, TailwindCSS, Docker, PHP, Laravel, WordPress, Azure, MySQL, PostgreSQL, and more

Web app and website development with React, JavaScript, and TypeScript. I build responsive interfaces, connect frontends to backend systems, and advise on technical decisions. I also handle German–English translation and localisation for international projects.

### Frontend Engineer & Sales | 2026–Present

Probussoft Richter eK, Erfurt/Germany (remote)

PHP & JavaScript, React, TailwindCSS, CSS 3, Azure, Docker, Frontend / Backend & Deployment

Frontend and backend work on the Probus Eventpilot app, plus website development. Focused on the PHP backend, implementing and deploying new website content, and building the UI in React. Worked across the full stack and handled Azure deployment.

### Frontend Engineer | 2024–2025

Hackney Games, London/UK (remote)

React, JavaScript & TypeScript, MUI, CSS 3, Frontend Design

Frontend and component development for the Hackney Games app catalogue. Built and integrated new game content in React, contributed to the main UI design, and connected interfaces to backend databases. Worked on modular game development built around Telegram chat bots.

**App-Testing, Error Management & Customer Service | 2024-2025**

REWE Digital Fulfilment Services GmbH, Leipzig/Germany

App Analysis, App Testing, Python 3

Supported error management and customer service, mobile app testing, and bug fixing through standard ticket workflows, with basic Python analysis to improve operational processes.

**IT-Sales & Customer Service | 2024**

Avedo (IONOS), Leipzig/Germany

HTML 5, CMS, WordPress, Hosting & Deployment, Infrastructure, Consulting, Sales

IT Sales and Sales Coach (IONOS) with a strong focus on web hosting and infrastructure, covering website solutions, design services, virtual servers, custom development, and managed hosting environments.

**Assembly Team Leader & Site Supervisor | 2020-2023**

CoMoDi GmbH, Arnstadt/Germany

Team Leadership, Resource Management, Logistical Planning, Team Communication & Motivation

Led a team of up to 10 technicians on nationwide assembly, disassembly, and customisation of mobile container units. Planned schedules, coordinated resources, and kept delivery on time and to spec across complex, multi-site projects — where reliable logistics and quick problem-solving mattered most.

**EDUCATION**

**Self-taught Developer | 2023-ongoing**

Leipzig/London

Built up through Codecademy career paths, technical documentation, and independent projects — and expanded through professional work since 2023.

**BA Musicology, Computer Science as elective subject**

University of Leipzig/Germany, 2013-2017

**State-certified Pharmaceutical Technician (PTA)**

Bildungswerk für Gesundheitsberuf e.V, Erfurt/Germany, 2010-2013

**CERTIFICATES**

**Frontend Career Path**

Codecademy | 2025

**PHP Course**

Codecademy | 2025

**Advanced TypeScript Course**

Codecademy | 2025

**SQL Course**

Codecademy | 2024

## **SKILLS**

- React TypeScript / JavaScript
- Express.js, Next.js, Node.js
- PHP, Laravel, WordPress
- HTML 5, SCSS, TailwindCSS, Bootstrap
- Docker, MySQL, postgresSQL
- Context engineering & AI-assisted development (Claude / LLMs)
- Bilingual in German & English
- Basics in Spanish & Polish
- Adaptable, quick to pick up new tools
- Pragmatic, focused on maintainable solutions
